ABOUT ME

Highly motivated Computer Science undergraduate specializing in Artificial Intelligence and Machine Learning. Strong foundation in Python, data structures, machine learning algorithms, and data analysis. Hands-on experience building academic and personal projects using real-world datasets. Seeking entry-level roles or internships in AI/ML, Data Science, or Software Development to apply analytical and problem-solving skills in a professional environment.

EDUCATION

2024 - 2028

Bachelor of Technology – Computer Science & Engineering (AI & ML)

Lamrin Tech skill
University

- 1st Semester SGPA : 8.3
- 2nd Semester SGPA : 8.8

2022 - 2023

Class 12th (CBSE – PCM)

RRB PUBLIC SCHOOL

Percentage: 81%

2020 - 2021

Class 10th (CBSE)

KUMUDLATA
CONVENT SCHOOL

Percentage: 80%

TECHNICAL SKILLS

Programming : Python, C++ , JAVA

Machine Learning : Linear Regression, Logistic Regression, SVM, k-NN, Decision Trees,
Random Forest, Classification, Regression

Data Analytics & Preprocessing : NumPy, Pandas, Data Preprocessing, Feature Engineering

Data Visualization : Power BI, Tableau

Web Technologies : HTML , CSS , JAVA Script

Version Control : Git, GitHub

Core Computer Science: DSA, OOP, Operating Systems, DBMS

PROJECTS

Customer Queue Optimization System (Machine Learning Project)

- Developed a predictive model to estimate customer waiting times in shopping mall queues.
- Applied basic machine learning algorithms to analyze queue patterns and optimize crowd flow.
- Improved customer experience by enabling efficient resource allocation.

AI Chatbot (Python & NLP)

- Built a rule-based chatbot capable of responding to predefined user queries.
- Implemented text preprocessing and conditional logic using Python.
- Strengthened understanding of Natural Language Processing fundamentals.

Movie Recommendation System

- Designed a content-based recommendation system using cosine similarity.
- Performed data cleaning and similarity score computation in Python.
- Generated personalized movie recommendations based on user input.

Machine Learning Model Practice Suite

- Implemented and evaluated ML algorithms including Linear Regression, Logistic Regression, SVM, k-NN, Decision Trees, and Random Forest.
- Analyzed model performance using standard evaluation metrics.

SOFT SKILLS

- **Analytical Thinking**
- **Problem Solving**
- **Team Collaboration**
- **Communication Skills**
- **Time Management**

AREAS OF INTEREST

- **Artificial Intelligence**
- **Machine Learning**
- **Data Science**
- **Software Development**
